Professional Summary

Mechanical Engineering undergraduate at NIT Manipur who works comfortably on both the technical and business sides of a product: building backend data workflows and API integrations on one hand, and running quantitative research and vendor-facing operations on the other. Prefers to understand a problem end to end, whether that means debugging a broken API call, structuring vendor data for a marketplace, or applying multi-criteria decision analysis to a research question. Comfortable communicating findings and trade-offs to both technical and non-technical stakeholders.

Skills

Technical: MySQL, Python, REST APIs, MongoDB, System Design, Database Management

Management: PRDs, Product Life Cycle, Growth, Operations, Stakeholder Management

Tools: Git, GitHub, Microsoft Excel, Figma, Cursor, Claude Code

Experience

Operations & Product Intern

Jun 8 – Aug 8, 2026

Cibos Techno Solutions Pvt. Ltd.

[LinkedIn](#)

- Built and led **LaariKhojo** end-to-end, conducting vendor research, defining product requirements, and driving MVP development and operations.
- Co-Developed Node.js/MongoDB backend workflows for vendor data, onboarding, and platform operations; wrote scripts to migrate existing vendor datasets.
- Integrated third-party APIs, including Meta's WhatsApp Cloud API, to automate vendor communication through personalized messages, template-based bulk campaigns and photo-upload onboarding flows.
- Onboarded **700+ vendors** onto the platform, handling data validation and coordination throughout the process.
- Represented LaariKhojo at Aahar Bazaar, where the team was selected among **200+ startups nationwide** (top 15), engaging directly with angel investors, NGOs, and partner organizations.

Research Intern

May 2025 – Jul 2025

National Institute of Technology Patna

[Research Report](#)

- Worked under the Advanced Manufacturing Research Group, evaluating sustainable bio-polymeric composites as alternatives to conventional engineering materials.
- Applied **AHP-TOPSIS** based multi-criteria decision analysis and statistical modeling to compare materials across multiple performance parameters, and documented findings for publication-oriented research.

Projects

The Handi Story — Co-Founder

Aug 2024 – Present

- Co-founded and ran the operations, procurement, and pricing decisions for a cloud-kitchen restaurant, treating decisions like what to stock and what to charge as data problems rather than guesswork.
- Started from zero orders and built the business from scratch, tracking daily revenue, costs, and margins to catch problems early and adjust pricing and sourcing accordingly.
- Scaled to **40+ orders/day**, crossed **Rs.3,00,000 revenue within three months**, and grew brand reach to **93.8K+** on Instagram through organic content.

MEET UPS — Student Discovery Platform

Jan 2026

- Built **MEET UPS**, a peer-discovery platform to help college students find people to collaborate with, after noticing how hard it was to find the right people outside one's immediate friend circle.
- Conducted **80+ user interviews** and validation surveys to understand student networking gaps, using LLM-driven prompt engineering to speed up research synthesis.
- Designed the onboarding flow and MVP roadmap based on the findings.

Leadership & Achievements

- T&P Coordinator, Mechanical Engineering, NIT Manipur:** Elected to coordinate branch placement activities and student-recruiter communication.
- ReGen National Hackathon:** Secured **Rs.1,30,000** in sponsorships and led the organizing team.
- IIT Jodhpur Robotics:** Selected and offered admission to the Joint M.Tech. Program in Robotics.

Education

National Institute of Technology Manipur

2023 – 2027

Bachelor of Technology, Mechanical Engineering

CGPA: 7.54/10

Kendriya Vidyalaya Langjing

2023

Senior Secondary (CBSE - PCM)

83.6%

UNACCO School

2021

Secondary (CBSE)
